

## 2026 Women's Golf Programs

---

### Women's Beginner League

This beginner friendly program is designed with the newer player in mind. Learn the fundamentals of the game and gain some valuable on course experience in a stress-free environment, while learning from each other.

**Sunday Clinics** - Fundamentally based instruction that focuses on the grip, stance, setup, and swing basics. Perfect for those new to golf, and those that still have questions. Sessions will take place at our teaching area.

**Tuesday / Wednesday On Course Sessions** - 30 minutes of fundamental coaching at our teaching area and 60 minutes of On Course Management. Concepts of pace of play and feeling comfortable on the golf course are two main reasons many new players never make it to the golf course. These sessions are designed to help you navigate the golf course and understand the thought process to make it less intimidating. These sessions will begin at our teaching area and move onto the golf course, where I'll bounce between groups and provide instruction.

Sign up for 1 session, or sign up for them all, (as space permits). Dates and fees below are per session date.
