

2026 Fall / Winter Indoor Junior Golf Program

Indoor Junior Programs

Back by popular demand, are 2 indoor simulators, which will allow for golf instruction all winter long. We will be offering a series of junior clinics starting in November and lasting through the end of March. Below is a description of our offering and where your child would fit.

Developmental Juniors

Fundamentally based instruction that focuses on grip, stance, setup, and swing basics. Perfect for those new and seasoned golfers. Sessions will include 30 minutes of instruction learning basic concepts and 30 minutes of simulator time.

Intermediate Juniors

These sessions are designed to move past the basic fundamentals. At this point, we will be working on swing plane, arm structure, club path, face to path, and angle of attack, while touching on the grip and setup. All of these are important to more consistent ball striking and understanding how to control your golf ball. Sessions will include 20-30 minutes of instruction, and 30-40 minutes of simulator time to work on any changes.

Registration

If you would like to register, please follow the links below or contact Tim directly at timskik@gmail.com or call/text at 508-446-0195 for any questions that you have.
